OUTING FLANNEL.

This specification is satisfied as follows:

CA. 334-7 7 ounce per square yard
 Outing Flannel complying
 with U.S. Federal
 Specification CCC-F-466
 (latest issue).

FOR INFORMATION ONLY.

(Consult endorsed specification for official purposes)

This material is a soft cotton Outing Flannel,
 napped on both sides.

When ordering this material to CCC-F-466 (latest
 issue) the requirement of 7 oz. per square yard
 must be stated.

This material is used, primarily, as a lining over
 the pads on the canopy cover assembly, in order
 to prevent scratching of the canopy and windshield.
