AUSTRALIAN STANDARD SPECIFICATION FOR AIRCRAFT MATERIAL
(Emergency Series)
THIMBLES

JULY, 1941

STANDARDS ASSOCIATION OF AUSTRALIA

AUSTRALIAN STANDARD SPECIFICATION FOR AIRCRAFT MATERIAL.
(Emergency Series.)

THIMBLES
(No. (E)D. 2515—1941.)

CORRIGENDUM.

Delete note at foot of Table I regarding A.G.S. No. 136 and A.G.S. No. 969 and substitute the following :

Table I is identical with the table in each of the specifications on which this standard is based, namely :

- A.G.S. No. 136—Thimbles (Brass).
- A.G.S. No. 969—Thimbles (Non-Corrodible Steel).

For ordering purposes the letter " Z " shall be inserted in the part number for corrosion-resisting steel thimbles.

For example, the complete part-reference for a brass thimble with dimension A equal to 0.50 inch is 2515.C and for a corrosion-resisting steel thimble of the same size is 2515.ZC.

D	.60	1.20	.22	.16	20
E	.70	1.40	.27	.17	20
F	.80	1.60	.30	.19	20
G	.90	1.80	.33	.21	18

A.G.S. No. 136—Brass Thimbles.
A.G.S. No. 969—Corrosion-Resisting Steel Washers.

*This Australian Standard comprises British Air Ministry Specifications A.G.S. 136 and A.G.S. 969 with amendments regarding materials. For reference to the specification in its amended form it is essential that the Australian classification number (E) D.2515 be used.

This specification, prepared by the Special Committee on Aircraft Materials and Components, was approved on behalf of the Council of the Association on 16th April, 1941.

NOTE.

In order to keep abreast of progress in the industries concerned, Australian standards are subject to periodical review. Suggestions for improvement, addressed to the Headquarters of the Association, will be welcomed.

AUSTRALIAN STANDARD SPECIFICATION FOR AIRCRAFT MATERIAL
(Emergency Series)

THIMBLES

This standard forms one of a series prepared by the Standards Association of Australia at the request of Departments of the Commonwealth Government for use in relation to the supply of materials required for defence purposes. In appropriate cases these specifications will be reviewed for inclusion in the normal series of Australian Standards.

1. Material. All thimbles shall be made from brass sheet or strip complying with the requirements of Australian Standard Specification No. H.5 (B.S. No. 265); or where corrosion-resisting steel is specified an approved corrosion-resisting steel shall be used.

2. Dimensions. All thimbles shall be in accordance with the dimensions given in Table I.

TABLE I.

Mark	A in.	B in.	C in.	D in.	E s.w.g.
A	.35	.70	.12	.08	24
B	.40	.80	.17	.11	24
C	.50	1.00	.21	.135	22
D	.60	1.20	.24	.155	20
E	.70	1.40	.27	.17	20
F	.80	1.60	.30	.19	20
G	.90	1.80	.33	.21	18

A.G.S. No. 136—Brass Thimbles.
A.G.S. No. 969—Corrosion-Resisting Steel Washers.

*This Australian Standard comprises British Air Ministry Specifications A.G.S. 136 and A.G.S. 969 with amendments regarding materials. For reference to the specification in its amended form it is essential that the Australian classification number (E) D.2515 be used.

This specification, prepared by the Special Committee on Aircraft Materials and Components, was approved on behalf of the Council of the Association on 16th April, 1941.
