

Amendment Slip No.3, published 30 November 1978
to British Standard SP. 33-39 : 1951
(Aerospace Series)

Turnbarrels, tension rods and swaged cable-end
connections for aircraft

Correction

SP 39. Table 1. Dimensions of eye ends for chain. In the heading to column insert '†' after 'B.S. 228'.

At the foot of page 16 insert the following footnote:

†The reference is to B.S. 228 : 1962 which has been replaced by B.S. 228 : 1970. The 1962 edition contained a single 0.315 in. pitch chain (B.S. 1) and narrow versions of several pitches including 0.375 in. (B.S. 2) 0.500 in. (B.S. 4 and B.S. 6) and 0.625 in. (B.S. 10). The single 0.315 in. pitch chain has been retained in the 1970 edition of B.S. 228 as reference 05B, but the narrow versions of the other pitches have been deleted.

The narrow versions are still manufactured, but users should make clear that they are referring to the 1962 edition of B.S. 228 and contact manufacturers regarding availability at an early stage in planning.'
